

Beyond the Book...

Title: Look Look!

Author: Peter Linenthal

Summary: This book has lots of simple pictures and high contrast of black and white pictures. It is a good first book for babies.

Before Reading...

- When you show your child the 1st page, place their hands on the page and point to their hands as well as the page and label "hands." You can also label other body parts, both on yourself and the child.

During Reading...

- As you read the book to your child, point to the pictures as you say the words. As you talk about the cat that stretches, also talk about how the cat is soft and furry, cat sounds like "meow", etc. For each object, describe to your child what it sounds, feels, smells, looks like, etc.
- As you read the book with your child, do the motions suggested in the book (hands reach, smile, stretch, etc.) and have your child do them also.

After Reading...

- Have physical objects of the ones in the book to show your child as you re-read the pages (plastic car, stuffed animal, plant, etc.), and let your child explore the objects.
